AIR FRYER CATALOG 2026/27

NO SURPRISES SEE WHAT'S HAPPENING INSIDE

Watch every ingredient transform through the viewing window, while precise controls and powerful circulation deliver crisp, evenly cooked results with complete confidence.

7000X

ENGINEERED BEYOND EXPECTATIONS

Advanced rapid air circulation, precision temperature control and intelligent digital programmes work together to deliver faster, more even cooking. The transparent chamber reveals the technology in action, producing crisp exteriors, tender interiors and dependable results with less oil, every time.

6000XB

BREAKFAST STARTS WITH AIR

From crisp croissants to warm morning favourites, your air fryer brings speed, ease and delicious texture to every breakfast, making busy mornings brighter, simpler and more satisfying every single day.

6000XW

THE BIG COOKING MACHINE

Built for bigger appetites and busier kitchens, this powerful 12L air fryer handles a whole chicken, generous sides and family-size portions together. Fast circulating heat delivers crisp results outside, tender flavour inside and effortless cooking every single day with ease.

GIGANTIC 12L CAPACITY

12000X

YES! IT'S STEAMED IN AN AIR FRYER

Steam cooking inside the air fryer gently locks in moisture, preserves flavour and delivers tender salmon with vibrant vegetables, giving you a lighter, healthier meal without sacrificing colour, texture or appetite appeal.

8000ST

The healthy benefits of steamed cooking come from preserving natural moisture, nutrients and flavour while using little or no added oil. Gentle heat keeps salmon tender, vegetables vibrant and textures satisfying, creating balanced meals that feel fresh, light and delicious.

COOK MORE IN LESS TIME THE OPTIONS ARE ENDLESS

Cook two different dishes at the same time with independently controlled cooking zones. Set separate temperatures and cooking times for each drawer, reducing waiting, simplifying meal preparation and serving complete meals together with greater convenience and efficiency.
